Art Unit: 3624

#### **DETAILED ACTION**

1. Claims 1-82 have been examined.

### Claim Rejections - 35 USC § 103

- 2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
  - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 3. Claims 1-82 are rejected under 35 USC 103(a) as unpatentable over De Leo(US Pat. No: 6,381,626) in view of Montiero(US Pat. No: 5,778,187).
- 4. As per claims 1-82 De Leo teaches ATM video advertising(Abstract)(Figs 1-4) which includes digital files which also includes cash dispensing with I/O inputs and a central computer processor(col 1 line 26-col 2 line 45). DeLeo also teaches use of an audio/visual files from a data storage device(col 3 lines 32-56)(Fig 2) in ATM machines. Montieiro teaches a high quality audio delivery system over a computer network(Abstract)(Figs 1-19). It would have been obvious to one skilled in the art at the time of the invention to combine De Leo in view of Monteiro and to apply the use of audio digital files in the conduct of ATM operations and employ them specifically to the subset of music audio files. The motivation to combine is to teach an ATM machine which can dispense cash as enunciated by Monteiro(col 2 lines 1-24) and which presents an audio output to the customer.

## Claim Rejections - 35 USC § 112

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 1-82 are further rejected under 35 USC 112(2nd) for failing to specifically claim what applicant regards is the invention. The independent claims are too broad and must be narrowed in order to precisely define the novel features in the disclosure with respect to the prior art.

#### Conclusion

7. THIS ACTION IS MADE NON-FINAL.

\*

8. Any questions concerning this communication should be addressed to the primary examiner of record, Dr. Geoffrey Akers, P.E., who can be reached between 6:30 AM and 5:00 PM Monday through Friday at 703-306-5844. If attempts to contact the primary examiner are unsuccessful, the primary examiner's superior, Mr. Vincent Millin, SPE, may be telephoned at (703)-308-1065.

The fax number for Formal or Official faxes and Draft or Informal faxes to Technology

Center 3600 or this Art Unit is (703)-308-3687. Any inquiry of a general nature or relating to the
status of this application should be directed to the Group receptionist whose telephone number is

(703)-308-1113.
